

Education

Indian Institute of Information Technology Manipur (IIIT Manipur)

2024 – 2028

B.Tech in Electronics and Communication Engineering

CGPA: 7.90

Projects

AI Resume Matcher

[Source Code](#)

- Developed an AI-powered Resume Matcher that analyzes resumes against job descriptions using the MERN stack and provides ATS scores with AI-generated improvement suggestions.
- I utilized the following technologies to build the system::
 - React.js** – Authentication, resume upload, job management, and ATS score visualization UI.
 - Node.js/Express.js** – REST APIs, authentication, resume processing, and job management.
 - MongoDB** – Stores user accounts, resumes, job descriptions, ATS scores, and matching history.
 - JWT** – Secure, stateless authentication and protected routes.
 - Multer & PDF-Parse** – Handles PDF uploads and extracts resume text for AI analysis.
 - Google Gemini API** – Generates ATS scores, matching analysis, and improvement suggestions.
- Successfully analyzes resumes against job descriptions and generates ATS compatibility scores with AI-powered recommendations.

Amazon Frontend Clone

[Source Code](#)

- Developed a responsive Amazon homepage clone using HTML and CSS, replicating the layout and design of the original site.
- HTML5** – structures the webpage and reusable UI components. **CSS3** – responsive layouts using Flexbox, Grid, animations, and hover effects.
- Built a pixel-perfect responsive frontend that adapts across different screen sizes.

Interactive Web Games

[Source Code](#)

- Developed browser-based Tic-Tac-Toe and Rock-Paper-Scissors games using JavaScript with interactive gameplay and dynamic UI updates.
- HTML5/CSS3** – game interface, layout, and animations. **JavaScript** – game logic, event handling, winner detection, score tracking, real-time DOM manipulation.
- Built interactive games with a smooth user experience, improving frontend and JS problem-solving skills.

Academic & Laboratory Experience

- Simulated signals using GNU Octave for frequency analysis; implemented modulation and sampling in communication systems.
- Designed analog circuits like amplifiers and OP-AMP circuits; worked with CRO, function generator, and multimeter.

Technical Skills

- Programming:** C, C++, JavaScript, Python, SQL
- Backend:** Node.js, Express.js
- Frontend:** HTML5, CSS3, React.js, JavaScript
- Databases:** MongoDB
- Developer Tools:** Postman, VS Code, GitHub
- Core Electronics:** Signals & Systems, DSP, Communication Systems, Analog Circuits, Microprocessors
- Tools:** MATLAB, GNU Octave, Oscilloscope, Multimeter, Circuit Simulation Tools

Relevant Coursework

Operating Systems	Microprocessors (8085/8086)
Semiconductor Devices	Principles of Communication
Object-Oriented Programming (OOP)	Data Structures and Algorithms (DSA)
Signals & Systems	Digital Signal Processing (DSP)
Communication Systems	Microprocessors (8085/8086)
Analog Circuits	Electronic Measurements

Leadership

Lead, Stand-Up Club – IIIT Manipur

- Organized events and workshops; managed student engagement activities.

Sports Club Lead, Think India – IIIT Manipur

- Coordinated sports events and tournaments; active contributor in organizing campus events.

Achievements

- Institute Topper-Secured Top Rank in Branch in 4th Semester.
- Solved 300+ LeetCode problems in Data Structures and Algorithms.
- Demonstrated consistent performance in core ECE subjects across semesters.
- Secured 1st Position in Stand-Up Comedy Competition at IIIT Manipur.
